Speakers must sign up in person with the City Recorder 15 minutes prior to the start of each meeting.
Please call City Hall with any questions or concerns.

3rd Shift - Distillery Multi-Craft Maintenance Technician

PRINCIPAL RESPONSIBILITIES: Must work in a multi-craft environment and be versed in basic mechanical, pneumatic, and electrical components of machinery. Diagnoses, analyzes, and troubleshoots problems with equipment and/or operating systems, both mechanical and electrical. Maintains all machinery and equipment including electrical motors, starters, VFD drives, control panels, conduit and wiring, motor control centers, main distribution switchgear, and lighting systems. Demonstrate the ability to interpret schematics and drawings. Maintain and program PLC's and motor drive controllers under little or no supervision. Install and repair machinery and equipment as necessary. This includes electrical and mechanical components, running conduit and wiring, and building electrical panels. Plans and performs debugging and troubleshooting techniques of different variations on all types of machinery and equipment including electrical, electronic, mechanical, hydraulic and pneumatic operations. Sets up and operates a variety of typical shop tools such as drill press, lathes, grinders, cut off saws, and similar units to perform required operations on replacement parts or parts to be rebuilt or repaired. Experienced with metal fabrication and welding, to include mig/tig welding, stick, and plasma cutter. Maintains facility plumbing systems this requires a working knowledge in industrial, commercial and domestic plumbing.

MINIMUM EXPERIENCE REQUIREMENTS: A minimum of three (3) years recent experience in industrial maintenance and a minimum of two (2) years formal training/education from vocational or trade school. An associate degree or certification associated with electrical training is a plus. Ability to perform mechanical repairs using shop equipment and consulting with others to determine specific needs, modifications, etc. Must have knowledge and experience with programmable logic controllers. This position requires at least a basic level of welding and pipefitting skill due to the inherent and specific needs of the area. Must possess good communication skills and be willing to participate in a team environment. Ability to lift up to 75 lbs, bend, work at heights, stand for long periods of time, and frequently climb steps. (In accordance with specific Work Task Analysis standards). Ability to work any shift, weekends, overtime as required, and cover a rotating call in schedule. Candidates must be willing to learn and capable of conforming to hygiene and sanitation requirements as described in the Brown-Forman Housekeeping and Sanitation Manual.

If you are interested and qualified, please apply at: brown-forman.jobs
